

## Star Wars Die-Cast Micro Collection Figures and Playsets (Circa 1982)

The micro collection figures are small, 25-32mm scale (about the scale of D&D miniatures) die cast figures that are pre-painted. They originally came with a number of figures together with a themed plastic playset. GOB will buy lose figures and lose playsets. However, when playing for a complete set, we will require the play set, the box and each figures that came with that playset.

### Piecemeal Playsets

A playset that is not complete (has box, all parts, all figures with it) GOB can buy separately. So long as the principle core piece or pieces of the playset remain, we can offer \$2 cash, \$3 store credit for a small playset and \$4 cash, \$6 store credit for a large one and then buy the figures separately.
